# Version 3 Preview: Mapping Reports

The new DataSalon V3 system includes integrated mapping reports, enabling you to visualise your contacts by country, state and postcode region. This entirely new mapping system has been fully designed and developed 'in house' and is only available via DataSalon. *For further details or a demonstration please email us*: info@datasalon.com

WORLD MAP

Density of contacts highlighted by country.

Country names and counts appear as the user moves the mouse over the map.

A detailed continent map of Europe is also available.

UK MAP - Contacts by postcode region. A Greater London detail map is also available.

US MAP – Contacts are highlighted by state.

Colour	Number of Contacts	Number of Regions
	0	0
	1-8	16
	9-21	15
	22-36	10
